## BOW ISLAND

From our own Correspondent

### Sudden Death

Mr. A. Goldreich of Maleb was found dead this morning somewhere about 11 a.m. in the grove of trees near his house

Constable Bradner and Dr. Henderson are making all necessary arrangements

Mrs. F. Smith returned from Medicine Hat last week where she had been for a few days to get her teeth extracted

Mr. Johnson, Mr. Tracey and Mr. Lean were business visitors here last week from Medicine Hat

Mr. H.E. Carlson, returned last week from Vancouver and other intermediate points after an extensive visit of two months. Mr. Carlson's friends says that he is looking much better for the change

Mr. and Mrs. Yokum from Medicine Hat were visitors here last Friday

Mrs. Scott of Grassy Lake was a visitor in town last week

Mr. and Mrs. Webb and daughter were the guest of Mr. and Mrs. Bradner last Sunday

Mr. and Mrs. Peter LaMarsh were business visitors here last Monday

A large party of Bow Islanders went for a picnic to Ronalane Farm last Sunday, and all report a very good time.

Master Bob Hoaglin is quite a busy man these days he has been out driving a hearse for Mr. C. Johnson

Miss Bessie Shaw of Medicine Hat spent the week end in town visiting Mrs. Eddie Wilmet

Miss Lila Halloran was on a visit to her parents here from Calgary, this week

Mrs. R.S. Beattie and Mrs. Archie Hoaglin spent Sunday with Mrs. Geo. Dunn

Mr. and Mrs. Harvey Grigsby returned from Waterton Lakes Saturday they report a pleasant trip

### NOTICE

U.F.A. and U.F.W.A.  
Pres. L.D. Jauges Pres. Mrs. James  
Will meet on Saturday  
August 28th.  
General Business  
Sec. G. Monds. Sec. Mrs. McGregor

Bow Island School District  
No. 1883

Tenders for driving School-van from the South East section of the above named School District for the School year commencing September 1st, until June 30th. 1921 will be received by the undersigned up till noon August 23rd. Lowest or any tender not necessarily accepted

Alfred Millar  
Secretary

Archie Hoaglin paid a visit to his home on Sunday last motoring from Travers

Mr. C.E. Johnson our local butcher has received a new glass show case with an ice-box in the middle which keeps his meats cold and fresh

Mrs. Slater of Vancouver is in town visiting old friends

Miss Lucile Bowden of Taber who has been spending a week with Mrs. A. Hoaglin returned home Saturday

Mrs. M.D. Schenert is visiting in the country

A.F. Dulinge formerly of Bow Island is now managing the Pioneer Lumber Yard at Burdett. Mr. Dulinge went to Jacksonville, Florida last October, but the climate did not suit him, and he was feeling a sick man, nearly all the time, and he lost fifty pounds during the time he stayed down there, so knowing Alberta so well, he decided that nothing would or could do him more good than breathe Alberta's invigorating air once more

We hope that Mr. Dulinge may have a speedy return to good health and that the Alberta climate may do for him all that he most greatly desires, perfect health, which we all find, is the most priceless of all our possessions

This is surely a Boost for our Alberta climate when dozens of people return here after trying out other (once thought) more favored Climates; but Alberta is easily the healthiest place of them all

### Sugar Price Lowered

It was announced to the wholesalers here today that the price of British Columbia Co.'s sugar had been reduced by one dollar a hundred, making the new wholesale price \$22.07

### AGENT WANTED

Wanted someone to be the Agent for the Medicine Hat Steam Laundry and Dry Cleaners

(Continued.)  
"Yes, nowadays it wasn't proved that they did, but every one knows they are just waders for a chance to do Durkin's same damage. Durkin's men all late Durkin 'cause he's strong enough to twist 'em in two, and he'll do it, too, if he ever finds 'em on his grounds, and this man Savage is stronger around here for no good. He's likely shakin' trouble with Durkin, too, for Durkin. Maybe I'd best speak to Durkin about it, Willy?"  
"Maybe you best," said the girl. "Won't you come over to the preserve and stay tonight, Durkin?" she asked coaxingly. "I promised Durkin I'd bring back with me, and she picked up her hat and violin and strolled reluctantly down to the bay."

"Willy," he said, "you alters here your own way about everything." Of course I intended that, but I guess what you mean is, will I stay? I tell you what I'll do. I'll stay there a night or two, but the Preserve morning. Afterwards I'll stick to my own grounds, though I'll be glad to see you. The girl looked her gladness. "I'd hoped you'd be willing to do that, Durkin," she said. "Durkin will be glad to see you."

She blew on the candle and they passed outside where a soft night wind was blowing the white flowers about through the uplands. A big moon was rising above the tre-tops, and the broad face of far-off Old Canada glowed in a soft radiance.

They stood for a moment, their eyes drinking in the pale glory. In the mind of each the same thought.

"The bars are up tonight, Durkin," said the girl softly.

He did not answer, but the bold on her arm tightened.

Then they turned towards the trail stretching like a white cord through the misty night.

### CHAPTER VI.

"As I was saying," remarked Pa Washburn, as he passed a generous helping of bacon and potatoes across to his guests from the city, "there ain't no man or woman born who kin keep from getting hungry and sleepy in this here country, an' at-ter."

"I must admit that I sleep better last night than I have for a long time," agreed Mr. Dayton, attacking the tempting bacon before him with a zest that brought a look of pleased surprise from his niece opposite.

"And you, Miss," beamed the portly hostess, as she poured the coffee. "I do hope you sleep."

"Perfectly," smiled Miss Marsh. "Then Pa's stories don't disturb you much?" Gracious alive, how that man does agree, it's almost a wonder. I don't mind it 'cause my folks kept store at Niagara Falls afore I was married, an' I'm used to the rumble, but there are some folks who come here summers do object to it. Our young man who came up to get the bay fever, he said he'd just as soon sleep on the caboose of a freight train, an' have done with it, as have Pa sleepin' underneath him. He said there would be less jar rumble to the caboose than there was to Pa's snore."

One or two spoonfuls of sugar in your coffee, Mr. Dayton?"

"Thank you, no coffee for me," returned Mr. Dayton. "A glass of water will suit me fine."

"Will ye have some tea?" asked Pa Washburn, frowning in deep concern. "We have three cups of tea, but green, an' minted. An' Miss Marsh, ye can quicker a mink kin hide her kittens, all ye get to do is say the word."

Mr. Dayton glanced imploringly at his niece who hastened to explain. "Uncle's doctor make him promise to drink neither tea or coffee, Mr. Washburn, an' she added slyly, "Uncle do not think him, because he is really fond of a cup of tea."

"Well, do not declare," sighed the settler. "It do seem too bad he can't have what he likes up here in Gault's country, doesn't it, Mr. Washburn?"

"No, it doesn't," answered his good wife. "It ain't too bad pro-

vided it's good to make him with a strong coffee, Pa, and I do spend the winter months best."

She filled a glass full of sparkling water and passed it down the table to the banker. "That's good spring water, sir," she beamed, "an' I do hope you'll enjoy it."

Pa Washburn's blue eyes twinkled. "It is good water, that," he nodded. "Smallest miracle to be found is in it, brook trout, so you needn't be so quick to drink all you want of it."

"Pa," said Mrs. Washburn, sternly. "Don't make irreverent remarks. Ask the ladies."

Washburn's eyes at once lost their twinkling and his lean face took on a strained expression as he bowed his head above his plate and repeated the time-worn game of his fathers and forefathers: "God bless this portion of our food to one use an' as truly to the service. Amen."

During breakfast the settler enlightened his visitors with an account of the place and its people. They learned that he was thickskinner in the Flaxville Lumber Mill, a job that took him about half of his time, and that Tommie, his son, was now, as a five ranger in the big Temagami Region. Flaxville's mill was one of the finest in the vicinity and the only one that ran all the year round.

"Of course," said Pa Washburn, "things ain't up to what they used to be, but the Government jumped in and made a reserve out of the best tract of the timbered Highlands. Afore that happened there was over twenty miles all round the mill, night and day. Now all there is left is just a few farms, all winter, and some more, but it's less than that."

"Pa's little," explained Mrs. Washburn, when at length the man sat silent, brooding above his plate, "but she's a good girl, an' she knows what she knows him know he wasn't cut out for a fine-keeper in a mill. To what with his knowledge of the woods, the weekly papers from A to Z, just as regular as they come, he has accumulated an education such as would be hard to come by in any position in the city. But there ain't no use tryin' to get him away from this here country, an' he'll stay here till he's count sleep or rain, storm or sunshine. Take him away from the mill or the wood an' the call of the birds he'll be all to pieces. An' so we are stickin' close to Lunkin'."

The banker tapped a crust of toast with his fork, musingly. "I can quite understand how a man's environment will sometimes become as much a part of his life as his body," he said. "Remove him from it and he's useless. Take me, for instance, I live in the city, down town, raised in it, have lived in it all my life, you might say, until I've grown to it, and am unhappy when away from its jangle and smoke and lights. 'It's a fact.'"

"So that you be feelin' like a pollywog out of water, up here, sympathized Mr. Washburn. "Yes, I know, I know, but," she smiled and nodded her head. "There's plenty of city folk come up here thinkin' that way 'cause they're hinders. Ain't that right, Pa?"

"Fully close to a dozen," agreed Pa Washburn, who had his reverie. "Fact is, nobody from the city gets to this place at first, like, but, by the flat-tailed braver, you art to see how they change their minds. Take that man Durkin, for instance, now, there's a sample of gratin' of decayed civilization onto rugged wilderness such as you don't see every day, let me tell ye!"

The girl looked up quickly. "Durkin," she repeated, "why, I've heard of him. Isn't he a young giant of a man who has a domain of his own up here in the woods somewhere, and who commands respect because of his great strength and promptness in punishing intruders?" Mr. French with a telling nod, about his nose, remembered, "Indeed?"

The banker nodded. "Yes, you have heard of this man Durkin?" he said. "He's a sort of wild man, but he serves, doesn't he? Makes a good living, I understand, by selling animals to zoos. What sort of a man is he, Mr. Washburn?"

Pa Washburn leaned his elbows on the table and fastened his blue eyes on the banker. "Let me tell you something," he said, "quietly and impressively. 'He's a real man; a real man.'"

He pushed his chair back from the table and going to the door, threw it open. "Look out wonder," he cried. "See that big aspen? You'd be surprised to hear him say 'that's a fine tree'! That's a real man; a real man."

He pushed his chair back from the table and going to the door, threw it open. "Look out wonder," he cried. "See that big aspen? You'd be surprised to hear him say 'that's a fine tree'! That's a real man; a real man."

He pushed his chair back from the table and going to the door, threw it open. "Look out wonder," he cried. "See that big aspen? You'd be surprised to hear him say 'that's a fine tree'! That's a real man; a real man."

**Eighth Semi-Monthly Crop and Live Stock Report**  
Department of Agriculture  
Edmonton, August 18th., 1920

General crop conditions throughout the Province are particularly promising. The abundant rains during the last half of July combined with warm weather brought all crops along very fast. During the last ten days practically no rain has fallen. The result has been especially suitable for killing and ripening of the early sown grain. The later grain should have moisture soon for best growth. Wheat cutting has commenced in various parts of the province, is general along the Crow's Nest Line and will be well underway throughout the whole of the south and east from the 18th. to the 20th.

Full rye is practically all cut and a considerable amount of it has been threshed. Some of the early sown barley has also been cut. Both rye and barley will give excellent yields. Over most of the province oats will require another two weeks before being ripe.

Reports from Grande Prairie and Peace River indicate that weather conditions have been very similar to the rest of the province leaving the crops well advanced and the prospect of a heavy general yield. Up to date no frost has been reported. The damage from hail has been heavy in some districts but on the whole has not been greater than ordinary years. The blown out area in the south will not produce much crop. A considerable amount of this has been prepared for next year and a limited area sown to fall rye. An area sixty miles square along the Grand Lake Railway, about half way between Calgary and Edmonton, has not been favored with moisture to the same extent as the rest of province, consequently the crops in this area will be somewhat lighter. Grasshoppers have been plentiful in certain places but effective measures were adopted for their control. Farmers cooperated with both the Dominion and Provincial Departments of Agriculture in a vigorous campaign of poisoning with a result that these pests have not done any great amount of damage. Leaving out of consideration the possibility of frost before the crop is harvested prospects at the present time indicate the heaviest yield which the province has had with the exception of 1915.

As far as can be determined at the present time the yield of wheat will run between 25 and 30 bushels. Up to the present time harvest labour has been scarce. Harvest excursions are now being run from Eastern Canada and no doubt the labour shortage will be relieved to some extent within the next week or ten days.

Feed is abundant in all parts. Hay is general and ideal weather prevails. Grass has been plentiful through the whole season. In all parts so that live stock is doing particularly well. During the past week shipments have commenced to arrive at the stockyards and packing plants. These shipments have been made up principally of breeding heifers, cows and sucking calves. On account of the thin condition of animals in the spring, beef will not come early though the condition of pasture at the present time is such as to ensure the animals being in good condition for fall delivery.

H. A. Craig  
Deputy Minister

**Labour Should Stand For True Democracy Not Bolshevism**

The British Labour Party were ill advised when they sent delegates to Paris to hold a Conference with French Socialists this week, to try to prevent war against the Bolsheviks of Russia, who are now trying to wipe out brave little Poland in a welter of blood, rapine and anarchy.

The Military Dictatorship of the Bolsheviks, in which every man is compelled to go to war on pain of death, is not the Free Democracy which the whole world lauds and longs for, but is the selfish designs of a few, just a band of murderers who at the present time have the upper hand in Russia, and are using their power with the utmost conceivable savagery, to further their own ends and not studying the welfare of the masses of the Russian people.

All honor to France, who has intellectual foresight and a boundless Chivalry common to all true Sons of France, they will not quietly stand by and see any deserving and weaker nations like Poland crushed to death by savage hordes, and for this great Principle of True Democracy have the Sons of

France marched in their hundreds of thousands to the sound stirring strains of the immortal "Marseillaise".  
But Britain falters and hesitates to go to the aid of the oppressed, because some of the Labour leaders threaten a civil war, those leaders are out and out Bolsheviks and should be treated as such by Britain.

## Breachy Animals

Pigs that are running at large are breachy animals according to law so everybody please keep them on their own place as they will cause further trouble.

## KILLED by a TRAIN

Smashing into a two horse team, driven by James Pound, near the Donaldson station, at 430 Donaldson, a Grand Trunk Pacific passenger train instantly killed Mr. Pound and both horses, and crushed the wagon into splinters. Mr. Pound was endeavoring to cross the railway track without any apparent knowledge of the approaching train, which was entering Donaldson from the south.

The deceased, who resides on a farm four miles south of Donaldson, was the head of a large family and had resided in that district for a number of years. He was 90 years old, and previous to going to the Donaldson station was working for the contractors who built the grade in the "Crow's Nest Pass."

An inquest will be held in Donaldson, probably, Tuesday night.

## Seven Persons

From our own Correspondent

Mrs. McEwen and her daughter arrived here last week from Scotland enroute to China, they stopped off at Mr. and Mrs. T. McDonald and during her visit with them met with an accident by falling down the basement stairs and it was first thought that she had some ribs broken. Mr. Rosh kindly assisted them by taking her to Medicine Hat last Friday, where Mrs. McEwen was admitted to the Hospital for Medical attention, but on examination it was found there were no ribs broken, although Mrs. McEwen was badly lacerated.

The Pool Hall at Seven Persons was closed by Constable Bradner on Friday August 13th, by order of the Provincial Secretary.

Mrs. Sam Parker was taken to Medicine Hat Hospital on Wednesday August 11th.

Young Turks Planning Revolt Among Mohammedans

Following reported conferences between Turkish military leaders and the Bolsheviks at Munich, Germany and representatives from India, Egypt, Afghanistan, Persia, Azerbaijan and Georgia, and Turkish nationalists and Lenin the Bolshevik leader at Moscow, a training school was established at Moscow for the representatives of the Turkish nationalists, according to official dispatches. From this school, after a rigorous course of instruction, in the plans and objects of the Conspiracy, groups from ten to twenty and fifty of the "Young Turks" it is said, were sent to propaganda headquarters in Persia, Afghanistan, India, Egypt, Georgia, Azerbaijan and Bulgaria, to promote intrigue and make ready for the southward march of the Bolshevik army through Persia to India and southward toward Egypt. The Turkish nationalist and Bolshevik propaganda has been particularly effective among the familar Egyptian tribesmen. The effectiveness of the Young Turk's propaganda has resulted in official reports for several months telling of unrest in India. Complete cessation from business as a protest against British policy toward the Caliphate was observed recently by the High Priests and Moslems.

Following reported conferences between Turkish military leaders and the Bolsheviks at Munich, Germany and representatives from India, Egypt, Afghanistan, Persia, Azerbaijan and Georgia, and Turkish nationalists and Lenin the Bolshevik leader at Moscow, a training school was established at Moscow for the representatives of the Turkish nationalists, according to official dispatches. From this school, after a rigorous course of instruction, in the plans and objects of the Conspiracy, groups from ten to twenty and fifty of the "Young Turks" it is said, were sent to propaganda headquarters in Persia, Afghanistan, India, Egypt, Georgia, Azerbaijan and Bulgaria, to promote intrigue and make ready for the southward march of the Bolshevik army through Persia to India and southward toward Egypt. The Turkish nationalist and Bolshevik propaganda has been particularly effective among the familar Egyptian tribesmen. The effectiveness of the Young Turk's propaganda has resulted in official reports for several months telling of unrest in India. Complete cessation from business as a protest against British policy toward the Caliphate was observed recently by the High Priests and Moslems.
